This report is issued in a standard format. Where the result(s) of a test falls within the boundary of the measurement of uncertainty and compliance cannot be specified, this shall be clearly documented on the report. The decision rule defines how measurement uncertainty is accounted for when stating conformity of a measurement with a specified requirement. Where a statement of conformity is required, measurements which fall outside the acceptance limits when taking into account the uncertainty, will be reported as inconclusive. For further information, please visit www.bvcps.co.uk/trf.
The information contained within any report is based on current BV CPS UK Ltd Knowledge and is given without guarantee. A satisfactory test report by no means implies that the product so tested is approved by BV CPS UK Ltd, UKAS or other body.
A report is a confidential document to the person or firm to whom it is issued and it will be strictly treated as such by BV CPS UK Ltd. It may not be reproduced either in its entirety or in part and may not be used for advertising. The person or firm whom the reports is issued may however show it or send, or a certified copy, thereof prepared by BV CPS UK Ltd, for the information of his customer, supplier or other persons directly concerned. BV CPS UK Ltd will not, without the written consent of the person or firm, enter in to any discussion or correspondence with any third part concerning the contents of the report. In the event of the improper use of a report, BV CPS UK Ltd reserves the right to withdraw it or adopt any other remedy which may be appropriate.
Samples submitted for testing are accepted on the understanding that the report issued shall not form the basis of, or instrument for, any legal liability against BV CPS UK Ltd and applies specifically to the sample(s) tested and not necessarily to the bulk.

INTRODUCTION:

An examination was requested to ascertain compliance with the requirements as detailed on page one of this report. The following tests were requested and our findings were as follows:

TEST RESULTS:

BS EN 13120:2009+A1:2014

Summary of Examination:

Clause	Description	Result	Comments
8	**Safety in use**	-	See note 1
8.2	Protection from strangulation	-	-
8.2.3.2.2	Breakaway system	-	-
	6 kg breakaway test	Pass	See note 2
8.2.3.4	Internal blinds with accessible inner cords	-	-
	6 kg breakaway test	Pass	See note 3

Notes

1	The sample was examined before testing and no defects were noted. The standard refers to EN 16433 for the test methods.
2	When the 6 kg mass was inserted into the chain loop, the breakaway device released the chain loop from the headrail, eliminating the hazardous loop.
3	When the 6 kg mass was inserted into the rear cords at both the bottom and penultimate panels, the breakaway devices released the rear cords from the curtain, eliminating the hazardous loops.
